

LOST IN SPACE

- First thing I will take with me is a completely full oxygen cylinder, So I can wait for the help as long as possible.
- There will be no area to step into so I must take some medication also, God knows what will be the next problem, or if I feel sick at that time.
- A satellite phone, to connect with the people on Earth for help.
- Some tools to repair my space suit, in case anything happen.
- And water is the second Important thing after Oxygen.
